Key Marketing Insights & Recommendations

01 — Mobile revenue

Mobile represents ~67% of active users but only ~5% of revenue, while desktop generates ~95% of revenue. **Recommendation:** Investigate the mobile product and checkout journey for potential conversion or purchasing barriers.

02 — Acquisition performance

Direct and organic search generate approximately $174K combined revenue. **Recommendation:** Protect SEO performance and investigate opportunities to scale high-performing acquisition sources.

03 — Product concentration

The Marine Layer Pullover generates substantially more revenue per purchase than lower-priced high-volume products such as the 1998 Socks. **Recommendation:** Promote high-value products and explore cross-selling opportunities.
